Essay Portion

(1,000 words double-spaced to be sent along with application)

School-based alcohol prevention programs are very important to help discourage underage drinking and drunk driving. That is why we are asking you to write a 1,000-word proposal for a school-based program that you think would effectively teach pre-teens and teenagers about alcohol-related consequences. We encourage you to be as creative as possible with your program and to include any materials that you think can help promote and make your program as interesting as possible. While statistics are important, we would rather you concentrate on the program itself. Your program must get the "Don't Drink" message across as well as hold the students' interest.
