## Section: Narratives - Program Description

### INTRODUCTION

Under the Elementary and Secondary School Emergency Relief II Fund (ESSER II), authorized by the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, the Pennsylvania Department of Education (PDE) awards grants to School Districts and Charter Schools to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the state.

Please note: ESSER II funds **cannot** be used for: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the LEAs, or 2) expenditures related to state or local teacher or faculty unions or associations. ESSER II funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.

**\*ESSER II funds are not Title I funds and as such, are not subject to Title I rules.**

### **Please explain how the LEA will determine its most important educational needs as a result of COVID-19. (3000 characters max)**

As a result of the COVID-19 pandemic, all schools have had to utilize distance learning as a means to educate our student body. Feedback from our parents on return to school plans indicates that they would like to see more of a synchronous learning approach in the fall of 2020 compared to the primarily asynchronous approach provided from March of 2019 through the first week of June 2019. In addition, the Pennsylvania Department of Education has directed all schools within the Commonwealth to comply with distance learning plans as alternative delivery methods in order to help mitigate the spread of COVID-19. In order to support a synchronous "real time" learning environment the district invested in various technology related equipment (hardware/software) to support distance learning. As the district developed our Health and Safety Plan for a return to school for 2020-2021, as directed by the Pennsylvania Department of Education, it became clear that the mandate to practice social distancing and the sanitizing of facilities would require additional efforts that were above and beyond the normal return to school. The district received an abundance of feedback from the staff and community with regard to safety measures that they wanted in place for a safe return to school. The district invested in PPE, cleaning supplies and equipment, desk shields etc...

### **Please explain the LEA(s) proposed timeline for providing services and assistance to students and staff. (3000 characters max)**

Once the district received notification of this funding, the administration began discussions on the greatest educational and safety related needs for our staff and students. The Pennsylvania Department of Education mandated that all schools within the Commonwealth develop a Health and Safety plan for the purpose of returning to school. The template for that plan was disseminated to the public schools the third week of June 2020. The district developed the plan and presented the plan for public review and comment on July 17, 2020. The plan was formally approved by the Central Valley Board of Education on July 30, 2020. The district has moved ahead to implement the Health and Safety plan for the 2020-2021 school year. All technology and PPE, cleaning supplies, and shields had to be in place for the staff return on August 24,

2020 as well as the student return on August 31, 2020.

**Please explain the extent to which the LEA intends to use ESSER II funds to promote remote learning.** (3000 characters max)

The district is offered three educational learning pathways for the return to school in the fall. Two of the three learning pathways involves distance learning. The Central Valley School District is a 1:1 school district. All students receive a district issued device K-12. When the pandemic hit in March of 2020 the district identified families that did not have viable WIFI and/or internet access. The district will utilize funds to provide drive up WIFI access in the parking lots of each of our school buildings. In addition, the district will purchase mobile hotspots for additional families that lack connectivity. Those hotspots will be targeted toward our traditionally underserved population of students. The district also purchased Logitech videoconferencing equipment with district funds for the purpose of remote learning. Additional hardware will be purchased to support remote learning equipment. iPads will be purchased as well as technical support in order to continue to support remote learning moving forward.

**Please describe how the LEA intends to assess and address student learning gaps resulting from the disruption in educational services.** (3000 characters max)

Diagnostic and formative assessments may be the most useful tools for identifying, understanding, and responding to student learning gaps created by learning loss associated with COVID-19 and the subsequent closing of schools from March 2020 through the first week of June 2020. In addition, all Central Valley students were taught synchronously during a school closure from December of 2020 through most of January 2021 due to community spread. Students were administered various assessments and remediation software before and after the shutdown in March of 2020 and again in December of 2020 to include but not limited to NWEA-MAPs, DIBELS, Classroom Diagnostic Tools, Study Island etc... as well the district engages in progress monitoring for our Tier 2, Tier 3, special education, and ELL students to identify learning needs. The district has a tiered intervention system in place to address needs for our struggling students. Those students were be evaluated upon their return to school in the fall and quarterly throughout the school year and the appropriate interventions will be administered.

**Please describe the LEA(s) proposed procedures for evaluating local COVID-19 impacts in relation to education programming and delivery.** (3000 characters max)

Areas of emphasis should include:

- Documenting learning loss associated with extended school closure;
- Outlining the development of local continuity of education plans over the course of emergency response efforts; and
- Detailing supports for vulnerable student populations and families.

The district will use the previously mentioned assessment data to evaluate learning loss from the spring to their return in the fall. The district evaluated all students in Grades K-8 using NWEA MAPS in the Spring of 2020. We reevaluated using NWEA MAPS as we returned to school in the Fall of 2020. The comparison scores will be used to determine gaps. The district

provided remote learning from March 16, 2020 to June 5, 2020 during the school closure due to the pandemic. Teachers continued to assess and provide grades during that time in order to provide as "normal" a learning environment as possible. The district has a tiered intervention system in place to provide support for struggling students. All students are evaluated and additional support is provided for those who meet eligibility criteria. Students are progress monitored daily/weekly and are retested quarterly using NWEA MAPS.

**Please describe the LEA core set of strategies that will be used to guide local investment of ESSER II funding, associated with short-range (i.e., remainder of the 2020-21 school year) and long-range (2021-22 and 2022-2023 school years) timelines. (3000 characters max)**

These strategies may entail the establishment, scale-up, refinement, or evaluation of remote learning, as well as strategies for school-based teaching and learning responsive to conditions related to the pandemic. LEAs will be asked to outline how limited, ESSER II funding may support these initiatives and how these funds might interact with other federal funding, including enhanced Title IV flexibility, to ensure strategic and sustainable use of funds.

The feedback that was received from our community from our continuity of education plans during the March 2020 - June 2020 school closure was the need for face-to face instruction and synchronous instruction that engages distance learners should we have to deliver instruction virtually for the 2020-2021 school year and beyond. Our Health and Safety plan provides four options for parents for the return to school in the Fall of 2020: #1 Face to face instruction #2 Synchronous instruction live streamed to the home during face to face instruction from the school #3 Students can go back and forth between face to face and synchronous as they wish #4 Asynchronous CV Cyber option The district will use CARES funding to improve our ability to provide synchronous distance learning, specifically through the purchase of iPads and technology support to allow us to deliver instruction remotely. Additional funds from other sources may be used to secure proper PPE, cleaners and cleaning supplies, desk partitions etc...in order to allow for face to face learning in compliance with our state mandated Health and Safety plan.

**Please describe specific plans, measures, and longer-term evaluative strategies concerning student learning gaps - as well as opportunity to learn factors - stemming from COVID-19. (3000 characters max)**

The district has specific intervention plans in each of our four buildings to address leaning loss and/or learning deficits. The district has an RTI tiered intervention system in place. The students are tested quarterly using standardized assessments (NWEA MAPS, CDTs, DIBELS (Previous PSSA/Keystone results) etc...to evaluate student progress. Eligible students are enrolled in the RTI intervention system. At the elementary and middle school level those students receive additional instructional support throughout the school day in both reading and math. High school students are divided into cohorts by Keystone Course and are provided additional support in Algebra, Literature and Biology.
